Moradabad, Uttar Pradesh

Vikas Institute of Engineering & Technology (BTEUP)

Diploma in Computer Science & Engineering

Aug 2021 – Jul 2023

Gorakhpur, Uttar Pradesh

EXPERIENCE

Ducat India, Noida, Sector 16

MERN Stack Development Trainee

Dec 2025 – Sept 2026

Noida, India / Remote

- Completed structured **MERN Stack Development training** with hands-on experience in **MongoDB, Express.js, React.js, Node.js, and JavaScript**, strengthening end-to-end full-stack development skills.
- Applied practical concepts including **REST APIs, CRUD operations, database integration, authentication, responsive UI development, Git/GitHub, debugging, and client-server communication** through project-based assignments.

Techiguru

Full Stack Developer Intern

Apr 2024 – Jun 2024

Remote

- Gained hands-on experience in **MERN stack development**, working with **React.js, Node.js, Express.js, and MongoDB** to strengthen practical full-stack development skills.
- Applied key development concepts including **REST APIs, database integration, authentication, CRUD operations, responsive UI development, Git/GitHub workflows, debugging, and deployment** through project-based tasks in a remote environment.

PROJECTS

INTERVO - AI Interview Preparation Platform

[Live Demo](#) | [GitHub](#)

- Built an AI-powered interview preparation platform using **Next.js 15, TypeScript, MongoDB Atlas, and Gemini AI** to generate topic- and resume-based interview questions, evaluate responses, and provide personalized AI feedback.
- Implemented **JWT Authentication, Google OAuth, REST APIs, session tracking, and performance analytics**, storing interview attempts and assessment results in MongoDB and presenting scores, feedback, and progress through a personalized dashboard.

SkillUP - Career Preparation Platform

[Live Demo](#) | [GitHub](#)

- Built a full-stack **career preparation platform** using the **MERN stack** that combines aptitude practice, technical learning, project showcasing, job discovery, AI assistance, and progress tracking in one platform.
- Implemented **JWT authentication, protected routes, REST APIs, MongoDB data models, and AI-powered workflows** for resume-based job recommendations, aptitude tracking, DevHub project management, and personalized dashboard insights.

Ad-Fit Analyzer – AI Landing Page Analysis Platform

[Live Demo](#) | [GitHub](#)

- Built an AI-powered conversion auditing platform using **Next.js, TypeScript, Gemini AI, Axios, and Cheerio** to compare advertisement messaging with landing-page content and identify conversion-impacting mismatches.
- Implemented automated ad-copy extraction, server-side landing-page fetching and HTML parsing, and **Gemini AI** analysis across persona, offer, product framing, proof, objections, and above-the-fold continuity, generating fit scores and actionable recommendations.
